

# Ballistics Case Study

## *Directions:*

1. Your instructor will divide the class into three groups. Each group will be assigned one of the types of ballistics (interior ballistics, exterior ballistics, terminal ballistics).
2. Conduct research and choose a criminal case which was solved using your assigned ballistics category.
3. Using the Internet, library or any other available resources, further research your criminal case. Be sure to include the information specific to your case and explain how the case was solved using ballistics.
4. Using your research, create a Microsoft® PowerPoint® presentation consisting of at least 10 content slides discussing your criminal case. You should also include at least two additional slides for the title and reference slides.
5. Share your presentation with the class and be prepared to answer questions.
