

Threats Against Infrastructure

Directions:

1. Your instructor will divide the class into groups of three or four.
2. Read through the following scenarios and decide if they are a threat to the infrastructure or not. If so, list the infrastructure protection techniques required.
3. Once all groups are finished, participate in a class discussion to share your findings with the class.

Breakout of the Swine Flu

Change in the economy

Bombing to a federal building

Tornado outbreak in the Mid-West

Rise in the cost of commodities

Power failure to a large city

Threats Against Infrastructure

911 phone line to emergency services shuts down

Airport goes on lockdown after a bomb threat

Gasoline shortage causes a rise in costs

Hurricane lands on the coast of Alabama
