

Criminal Justice Glossary

Directions:

1. Create a glossary of terms used in criminal justice professions.
2. Include at least 50 terms (at least 20 of those terms should NOT be in the presentation).
3. For each term, provide a definition and use of the term in an example sentence.
4. Example sentences must provide contextual evidence of the meaning of the word.
5. After your glossary is complete, be prepared to share a few terms from your glossaries in a class discussion.
