

Terminology Skits

Directions:

1. Working with a group of three or four, write a skit containing as many criminal justice terms as possible. Your skit should be about two minutes long and have a clearly defined storyline. Terms used should be appropriate in the context of the story and should be used in ways which indicate you understand their meaning.
2. You will perform the skits for the class while your classmates write down terms used in the skit. After your skit, you will participate in class discussion regarding which terms were used. The class will create a list of terms used on the board for each group. The group using the most terms in their skit wins the *Activity*.
