

Careers In Forensic Science

Directions:

1. The tables on the following pages lists the 11 sections of forensic science according to the American Academy of Forensic Science. Begin by listing a sample occupation which falls under each category (the second column).
2. Find a sample job posting for each occupation selected.
3. Use the job posting, and additional research if necessary, to fill out the remaining columns in the table.
4. Attach a citation sheet listing all sources used.
